

The art of books

Beautiful art books are an absolute feast for the senses and make fabulous gifts and keepsakes

WASHINGTON GREEN HAS published two sumptuous books featuring the inimitable works of the late great Govinder and the brilliant Daisy Boman.

'**Legacy, The Work 1999 - 2008**' celebrates Govinder's prolific career with Washington Green. As one of the UK's leading contemporary artists, he enjoyed enormous success in the UK and around the world. His vast body of work encompassed oil paintings, giclées, silkscreens, sculptures and ceramics, with his striking, naïve portrayal of the feline and canine form winning him thousands of fans across the globe. The catalogue raisonné is available in a standard edition for £39.95 or as one of a limited edition of 995 canvas-

bound books together with a signed limited edition print for £130.

'**Belonging**' is a fabulous showcase for some of the key pieces created by Belgium-born artist Daisy Boman over the years. The utterly mesmerising art and sculpture by this established and successful artist is sought after by collectors around the globe, with her collections exhibited worldwide. Along with abstract sculptured wall art, the book features her distinctive 'Bo-men' figures, which, in their natural untainted state, strip man back to his most primitive form, removing all aspects of colour and race.

'**Belonging**' is released as an open edition book, and is available for £29.95.
